# DISC BRAKE PADS

Specially Crafted to Exact Specifications, OEM Brake Pads  
Guarantee Top-Notch Performance, Safety, and Durability.

Engineered with Precision and Quality Materials,  
These Pads Ensure Consistent Braking Efficiency for Your Vehicle Under Diverse Conditions.

## CERAMIC BRAKE PADS

Clean, Quiet, Durable, Minimal Dust,  
Optimal Daily Driving.

## SEMI-METALLIC BRAKE PADS

High Friction Coefficient,  
Long-lasting, Reduced Brake Fade,  
Suitable for Heavy-duty Applications.

## ARAMID BRAKE PADS

Exceptional Stopping Power, Minimal Wear,  
Consistent Performance, Enhanced Heat Dissipation,  
Extended Pad Life, Ideal for High-Performance Driving,  
Ensures Safety and Reliability. These are also recommended for hilly areas.

## ENGINE COOLANT

Works Up to 125°C boiling point and  
-12°C freezing point.  
Special Anti-freeze works up to 131°C  
boiling point and -45°C freezing point  
Anti-Rust and Anti-Freeze Protection.  
Making It Suitable for All Seasons.

## RELIABLE BRAKE HOSES

These Brake Hoses Ensure Durability  
and Reliable Performance.  
They Provide Consistent Hydraulic  
Pressure Transfer for Safe and  
Effective Braking, Suitable for all vehicles.

## RADIATOR CAP

Meticulously crafted for peak engine cooling performance and reliability.

Engineered with meticulous care, our radiator caps offer both style and dependable cooling solutions, ensuring optimal engine performance.

## COPPER BATTERY TERMINALS

Copper terminals ensure efficient power transmission with superior conductivity and durability, optimizing battery performance in demanding environments.

## BRASS BATTERY TERMINALS

Brass terminals offer reliable electrical connections with exceptional corrosion resistance and durability, ideal for automotive industry.

## BRAKE LININGS

Expertly designed for superior braking safety, durability, and consistent performance.

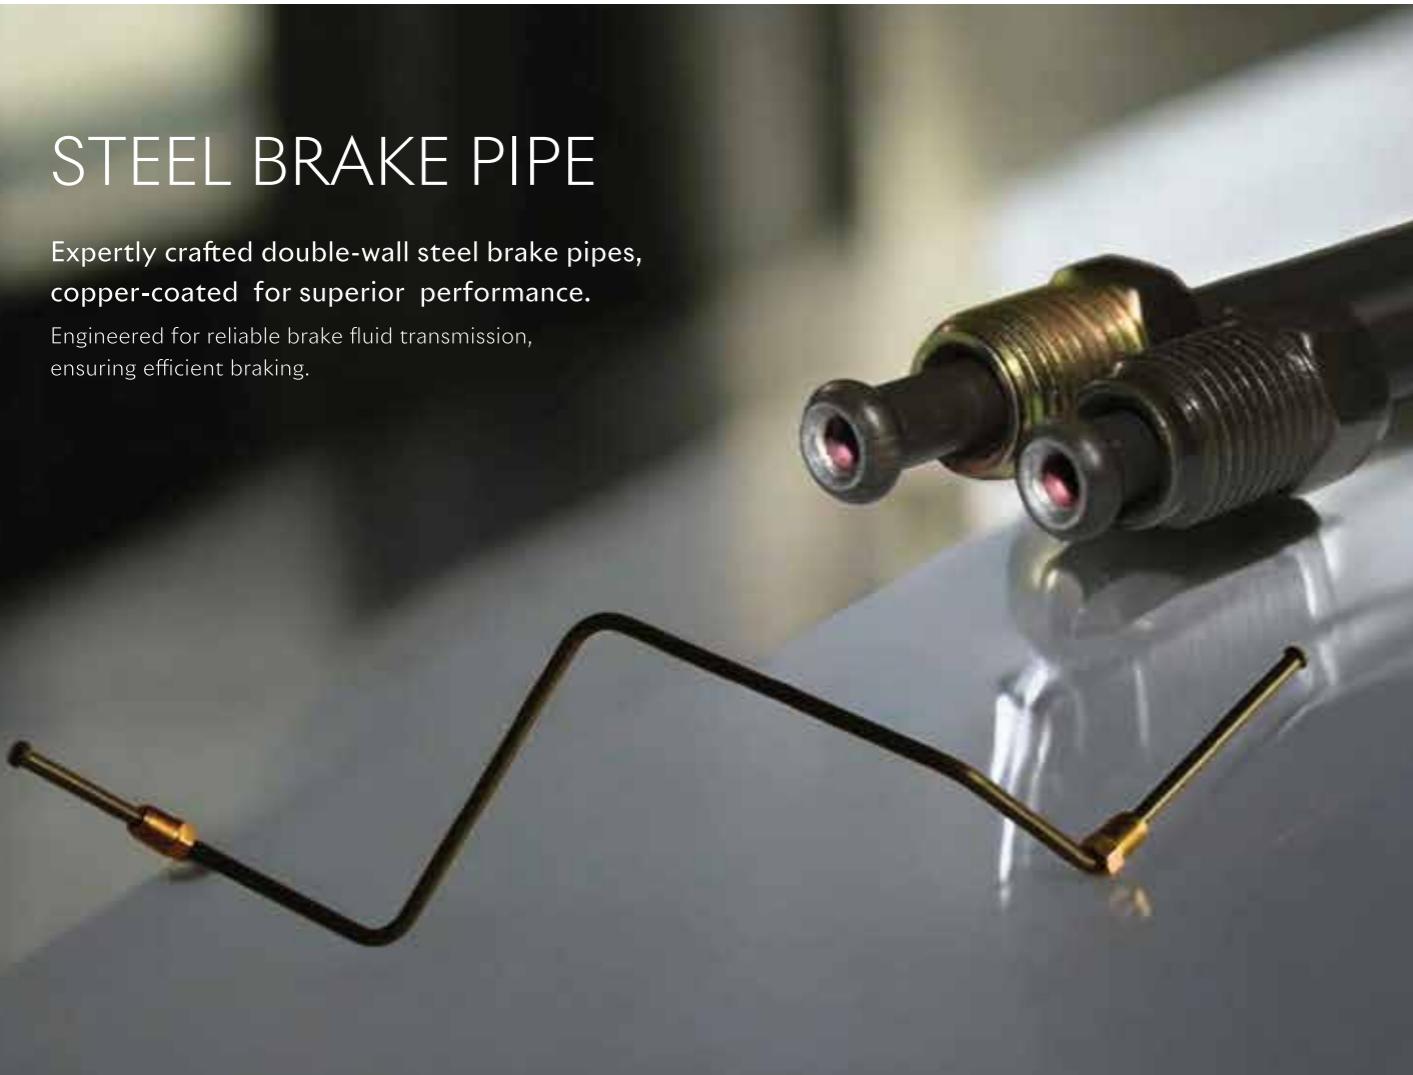

Engineered for reliable stopping power and lasting wear, ensuring consistent braking.

## STEEL BRAKE PIPE

Expertly crafted double-wall steel brake pipes, copper-coated for superior performance.

Engineered for reliable brake fluid transmission, ensuring efficient braking.

## BRAKE FLUID DOT-3

Trust in its proven track record for safe and secure stops whenever you hit the road.

### EFFICIENT BRAKE PROTECTION

Brake Fluid DOT-3 ensures reliable and consistent braking performance, offering peace of mind with every drive.

ISO 9001:2015

Brake Expert Auto Industries  
P.O. Box No. 16, Postal Code 321, Sohar, Oman  
CR No. 1588426  
Auto Spare Parts Trade  
[www.brexauto.com](http://www.brexauto.com)

Specializes in OEM auto parts like brake pads, radiator caps, steel brake pipes, brake hoses, coolants, brake oils and battery terminal clamps.  
Our commitment to R&D has improved our supply chain, manufacturing quality, and technology, allowing us to expand wisely.

We invest in advanced CNC machinery for precise manufacturing and rigorous testing. Specializing in OEM auto parts like brake pads, radiator caps, steel brake pipes, brake hoses, coolants, brake oils, and battery terminals. Our commitment to R&D drives innovation, enhances manufacturing quality, and optimizes supply chain efficiency, reinforcing our strong market reputation. Focused on excellence, we continually advance in automotive manufacturing to exceed industry standards.
